FROM GLOBAL TO LOCAL

- UN Sustainable Development Goals
- EU goals, policies, strategies, guidelines, development projects etc. - across topics and sectors
- National and regional framework
- Municipal plans and projects

LIGHTING IN PLANNING

- Early cooperation – urban and lighting planners
- Long term political commitment on goals and budget
- Sustainable and circular development
- Use the plans – follow up the plans
- Integrate lighting – from strategy to construction projects

INTEGRATE SMART

- City over local system
- Right network and management system
- Ownership on lighting and smart city data
- Culture matters – get inspired
- Lighting for people
